## ***Pleasure Driving and Chore Skills Teamster weekend***

Two clinics, combined into one weekend, instructed by Harvey MacFarlane.

Day one focuses on correct harness fit and repair, proper hitching, driving horse manners, Whoa means Whoa, basic driving skills with proper use of body and voice language. Driving in a group setting, and testing skills with some obstacles. Whether you are new to driving or years of experience, there is always something to learn and improve on.

Day two is taking teams or singles and drivers on a more skilled oriented setting. Fine tuning precise communication between horse and driver to effectively and smoothly execute skilled driving which might include parallel parking, docking, pulling, chutes and keyholes, as well as safely operating teams in a busy setting. Plans also include hitching up multi hitches such as three and/or four abreast, four up, and maybe even a unicorn hitch. We have even done a five-horse hitch in the past!

Event is limited to six teams or combination of team/single per day.

Auditors will be encouraged to be helping a driver with his/her team though out the day, no point is just sitting in a chair!

SK Clydesdale members receive a \$20 discount on registration.

A team or single horse registration includes driver and helper.
